

Career Workshop for Math Majors

Please complete the pre-survey
before the workshop starts:

Jesselle Hoque (she/her), Cal '16
Career Counselor for Engineering, Math & Physical Sciences

Agenda

1

Using Berkeley Career Engagement's Where Do Cal Grads Go? data and other resources, identify a top career path

2

Find 3-5 job descriptions for this top career path and determine the skills needed

3

Determine which skills you already have and which ones you need to develop

4

Make a plan for how you will get the skills you still need to develop

**Connecting
majors to
careers**

1. Explore what other people have done

[Where Do Cal Grads Go? Survey](#)

[Alumni on Berkeley Career Network](#)

[Alumni on LinkedIn](#)

2. Explore industries

What Can I Do With A Major In...?

3. Explore positions

Candid Career

4. Explore the jobs currently available

Jobs on Handshake

(search by major)

**Determine and
explore your top
career choice**

- Tata Consultancy Services

Develop a Goal

- After looking through the Where Do Cal Grads Go? Survey data or other resources, pick your top choice of careers at this time
- Find 3-5 job descriptions for this top choice
 - Use Handshake, LinkedIn, Indeed, Monster, or another online job board
- For each job description, pay attention to the technical and transferable skills that are required
- Make a list of the skills you have and the skills you don't have
- Do you notice any themes across the job descriptions?

Sample List of Skills

Research

Leadership, previous research experience, Python, R, Matlab, GIS

Teaching

Mentoring, tutoring, classroom experience, curriculum development

Data Analytics/Science

SQL, Excel, Tableau, Python, R, SAS

Software Engineering

Python, Javascript, Java, C#, C, C++, R

**Upgrade your
skills**

Develop Objectives

- Write how you will obtain at least 2 of the skills that you listed you do not have that were important based on the job descriptions:
 - Take a course or [DeCal](#)
 - Take a workshop (check out [D-Lab](#) or [Cal NERDS](#))
 - Project experience
 - Student club project (search for clubs on [CalLink](#))
 - Personal project
 - Open source project ([open source guide](#))
 - Competition ([Devpost](#) for hackathons and [Kaggle](#) for datathons)
 - Internship ([Handshake](#))
 - Micro-internship ([Parker Dewey](#))
 - Research ([Office of Undergraduate Research & Beehive](#))
 - Volunteering ([idealist](#))

Post-survey
